

The  
*Montana Safety & Health Bureau*  
presents

**MSHA PART 48**

# **NEW MINER TRAINING AND CPR/FIRST AID TRAINING**

The Mine & Safety Health Act (MSHA) requires all underground mine workers to complete New Miner Training before being allowed to work in a mine.

This 32-Hour New Miner Training Course is being offered at *No Charge* to those interested in applying for jobs in an underground coal mine.
